## 4 First-aid measures

· Description of first aid measures

- General information: Immediately remove any clothing soiled by the product.
- After inhalation:
- This product is a thick paste, therefore inhalation is extremely unlikely.

Supply fresh air and to be sure call for a doctor.

In case of unconsciousness place patient stably in side position for transportation.

- After skin contact: Immediately wash with water and soap and rinse thoroughly.
- · After eye contact:

Rinse opened eye for several minutes under running water. If symptoms persist, consult a doctor.

• After swallowing: If swallowed in large quantities seek medical attention.

• Information for doctor:

• Most important symptoms and effects, both acute and delayed No further relevant information available.

Printing date 09/29/2021

Reviewed on 09/16/2021

#### Trade name: ClearTemp<sup>TM</sup> LC

#### • *Indication of any immediate medical attention and special treatment needed No further relevant information available.*

#### **5** Fire-fighting measures

- · Extinguishing media
- Suitable extinguishing agents:
- Foam, dry chemical, carbon dioxide
- Use fire fighting measures that suit the environment.
- Special hazards arising from the substance or mixture No further relevant information available.
- · Advice for firefighters
- · Protective equipment:
- Wear self-contained respiratory protective device.
- Wear fully protective suit.

### 6 Accidental release measures

· Personal precautions, protective equipment and emergency procedures Wear protective clothing.

- Environmental precautions: Do not allow to enter sewers/ surface or ground water.
- Methods and material for containment and cleaning up:

Absorb with liquid-binding material (sand, diatomite, acid binders, universal binders, sawdust). Dispose contaminated material as waste according to item 13.

- *Ensure adequate ventilation. • Reference to other sections*
- See Section 7 for information on safe handling. See Section 8 for information on personal protection equipment. See Section 13 for disposal information.

## 7 Handling and storage

• Handling: • Precautions for safe handling Avoid contact with eyes. Ensure good ventilation/exhaustion at the workplace. Prevent formation of aerosols.

- Information about protection against explosions and fires: No special measures required.
- · Conditions for safe storage, including any incompatibilities
- · Storage:
- Requirements to be met by storerooms and receptacles: No special requirements.
- · Information about storage in one common storage facility: Not required.
- Further information about storage conditions: Protect from exposure to the light.
  See product labelling.
  Keep receptacle tightly sealed.
  Specific end use(s) Professional Temporary Veneer Cement

#### 8 Exposure controls/personal protection

• Additional information about design of technical systems: No further data; see item 7.

· Control parameters

Components with limit values that require monitoring at the workplace:

The following constituents are the only constituents of the product which have a PEL, TLV or other recommended exposure limit.

At this time, the other constituents have no known exposure limits.

#### Trade Secret

TWA Short-term value: 0.8 mg/m<sup>3</sup>

#### 79-41-4 Methacrylic Acid

*REL* Long-term value: 70 mg/m<sup>3</sup>, 20 ppm Skin

TLV Long-term value: 70 mg/m<sup>3</sup>, 20 ppm

• *Additional information:* The lists that were valid during the creation were used as basis.

• Exposure controls

- · Personal protective equipment:
- General protective and hygienic measures:

Keep away from foodstuffs, beverages and feed. Immediately remove all soiled and contaminated clothing. Wash hands before breaks and at the end of work. Avoid contact with the eyes and skin.

• Breathing equipment:

In case of brief exposure or low pollution use respiratory filter device. In case of intensive or longer exposure use respiratory protective device that is independent of circulating air.

· Protection of hands:

Protective gloves

The glove material has to be impermeable and resistant to the product/ the substance/ the preparation. Due to missing tests no recommendation to the glove material can be given for the product/ the preparation/ the chemical mixture.

Selection of the glove material is based on consideration of the penetration times, rates of diffusion and the degradation

#### · Material of gloves

The selection of suitable gloves does not only depend on the material, but also on further marks of quality and varies from manufacturer to manufacturer. As the product is a preparation of several substances, the resistance of the glove material can not be calculated in advance and has therefore to be checked prior to the application.

· Penetration time of glove material

The exact breakthrough time has to be found out by the manufacturer of the protective gloves and has to be observed.

• Eye protection:

Tightly sealed goggles

· Body protection: Protective work clothing

· Primary irritant effect:

• on the skin: Irritant to skin and mucous membranes.

• on the eye: Irritating effect.

• Sensitization: Sensitization possible through skin contact.

• Additional toxicological information:

The product shows the following dangers according to internally approved calculation methods for preparations: Irritant

· Carcinogenic categories

· IARC (International Agency for Research on Cancer)

None of the ingredients is listed.

·NTP (National Toxicology Program)

· OSHA-Ca (Occupational Safety & Health Administration)

None of the ingredients is listed.

## **12 Ecological information**

· Toxicity

| 1 one of the second sec |   |  |  |
|--|---|--|--|
| · Aquatic toxicity:  |   |  |  |
| 109-16-0 Triethylene Glycol Dimethacrylate   |   |  |  |
| EC50   | >100 mg/kg (Algae)  |  |  |
| Biodegradability   | 28 days (Aerobic) (Biodegradability testing)                  |  |  |
| Aqua toxicity  | 32 mg/l (daphnia) (No Observed Effect Concentration)          |  |  |
| Trade Secret   |   |  |  |
| EC50 >1,000 mg/kg (daphnia)  |   |  |  |
| 79-41-4 Methacr  | 79-41-4 Methacrylic Acid                                      |  |  |
| EC50 17,000 mg/kg (Algae)  |   |  |  |
|  | <180 mg/kg (daphnia) (Toxicity to aquatic invertebrates)      |  |  |
| · Persistence and a  | legradability No further relevant information available.      |  |  |
| · Behavior in envi   | ronmental systems:  |  |  |
| · Bioaccumulative  | potential No further relevant information available.          |  |  |
| • <b>Mobility in soil</b> N  | • Mobility in soil No further relevant information available. |  |  |
|  |   |  |  |

• Additional ecological information:

· General notes:

Water hazard class 1 (Self-assessment): slightly hazardous for water

Do not allow undiluted product or large quantities of it to reach ground water, water course or sewage system. • Results of PBT and vPvB assessment

• *PBT:* Not applicable.

• **vPvB**: Not applicable.

• Other adverse effects No further relevant information available.

## **13 Disposal considerations**

• Waste treatment methods

· Recommendation:

Dispose of contents/container in accordance with international, federal, state, and local regulations.

• **Recommendation:** Disposal must be made according to official regulations.
